Caravan Club site, Hall Farm, Cotes.

A letter from the Caravan Club Land Use Officer  
informed the Council that arrangements have been  
made with Mr.Hibbins that in future the siting of  
the vans will be in a hollow, and that in order to  
make quite certain that members do not park on the  
high ground as before, five markers will be placed  
showing where the caravans are to be sited.  
The meeting accepted the new siting arrangements,  
but a watch will be kept on the site to ensure that  
the number of vans allowed is not exceeded.

Telephone Kiosk, Village Centre, Burton-on-the-Wolds.

A letter from the Manager, Buildings Branch, Head Post Office, Leicester, informed the Council that he will arrange for the exterior of the kiosk to be painted although they are currently under instructions on economy grounds to refrain from re-painting.

The letter also stated that the replacement of the broken glass panels is in hand by British Telecoms.

Road Junction, B675-B676, Burton Old School.

A letter from the County Council Divisional Surveyor stated that he was satisfied with the visibility of the signs, and would not recommend advance warning signs as these may confuse drivers on the main road.

The "Give Way" sign at the lower (Loughborough) junction will however be enlarged, and the bushes obscuring the left hand "Give Way" sign at the upper (Burton) junction will be cut back.

It was agreed to accept the arrangements the Divisional Surveyor had proposed to carry out.

Anthony Stuart Memorial Fund.

A further letter had been received from Mr.H.Fox, Parish Council's Officer, stating that legal advice had been taken from the National Headquarters of the Association of Local Councils concerning this Memorial Fund.

In order to make the donation of £10.00 legal, it must either be shown in the Council's accounts as a payment from the Chairman's allowance, (if he has one), or alternatively as an additional subscription to the funds of the Association. All such additional subscriptions would be utilised for the purpose for which they were intended.

On the proposition of Dr.Evans, seconded by Mr.Howe, it was agreed that the £10.00 donation be recorded in the Accounts as an addition to the current years subscription.

Mowing of grassed areas, Burton-on-the-Wolds.

TE  
A letter from the Divisional Surveyor of the County Council explained the reason for the interval of seven weeks in the mowing visits to Burton-on-the-Wolds during the last season. This was due to there being no spare men available to make up for holidays, sickness or emergencies. The Divisional Surveyor however gave his assurance that he will do everything possible to ensure the County Council maximizes its service in Burton-on-the-Wolds.

Planning  
Applications.

The following Planning Applications had been received :-

81/3157/2, 10-11-81, Mrs.Cooper, Change of use of ground floor to provide restaurant and retain small holding, Brookfields Farm, Bandalls Lane, Burton-on-the-Wolds.

With reference to Planning Application No.81/3157/2, the Clerk was asked to inform the Borough Planning Officer of the Council's approval of the application, and that the Council considered a restaurant would be an added amenity to the district. There were no comments or objections raised to the other two applications.

Ex. Ministry of Defence Land off Barrow Road,  
Burton-on-the-Wolds.

A letter from the Borough Secretary informed the Council of the latest development concerning the arrangements for the purchase of the piece of Ex. Ministry of Defence Land situated between the Burton Playing Field and the Fishpond Plantation. Once these arrangements have been passed by the Borough of Charnwood and certified by the District Valuer, the Borough Secretary will let the property developer have a draft contract. This will require the developer to build the new access road past the Ministry of Defence Houses up to the land being purchased by the Parish Council, and to construct a Sports Pavilion on this land.

The contract to sell the piece of land to the Parish Council will be drawn up at the same time as the contract with the developer, and the Borough Secretary suggested that a nominal deposit of £5.00 be paid on exchange of contracts, with the balance of the purchase price (£1795) payable on completion, and the Borough Secretary thought that this could be in the first week of April.

In conclusion the Borough Secretary suggested that the Parish Council avail themselves of the services of the Borough Surveyor to check and supervise the developer on a professional basis during the construction of the pavilion, and any problems with, or comments on the builders efforts during construction should be channelled through the Borough Surveyor rather than taken direct by any member of the Parish Council to the builder.

A further letter had been received from the Borough Secretary together with the Draft Contract and plans of the Sports Pavilion.

The Borough Secretary wished to point out to the Council that the "Fixed Price" pavilion specification is quite definite on what works are to be carried out for the price. If the Council require any extras such as a paved area around the pavilion, then the Parish Council will have to pay for them.

Dr. Evans proposed, and the meeting agreed that the thanks of the Parish Council be given to Mr. Longden for the contents of the two letters.

It was then agreed that the following replies should be given to Mr. Longden concerning the purchase of the land and the Sports Pavilion.

1. The Parish Council would prefer the completion of the purchase of the piece of land to be before the end of the current financial year, i.e. 31st. March, 1982.

TE

2. On the proposition of Mr.Eggleston, seconded by Mr.Howe it was agreed that the Parish Council pays the balance of the cost of the Sports Pavilion that is £1980.
3. The Parish Council wishes to accept the offer made by the Borough Secretary for the services of the Borough Surveyor to supervise the construction of the Sports Pavilion.
4. The Parish Council would like to see the completion of the Sports Pavilion by September,1982.

The Chairman then wished to draw the attention of the meeting to a letter from the developer to the Borough Secretary in which it was stated that included within the cost of the Sports Pavilion are allowances for the drainage of sewage which he feels will have to be pumped due to the proposed site being below the level of the new road, and there being inadequate fall.

At the time of writing the letter this had not been physically checked on site, but this could be done if the project went ahead.

Parish Project  
Burton-on-the-  
Wolds.

Extract from the Borough of Charnwood Minutes dated 30th.November,1981.

Estates and Recreation Committee Meeting dated 5th.November,1981.

One of the more complicated Parish project schemes, that concerning the provision of additional land at the Burton-on-the-Wolds playing fields to create proper access, parking and possibly a pavilion, was coming to fruition after detailed negotiations over a lengthy period. The Parish Council's encouragement, support and co-operation in the venture had been considerable.

TE  
The scheme involved the acquisition of two areas of land and a private roadway and a plan was submitted. Those acquisitions had been approved by the Council earlier in the year and the transactions had now been completed. The Vendors had imposed a covenant for the making up of the whole of the roadway to adoption standard and it was a planning requirement that an improved and re-aligned junction with Barrow Road be provided in the interest of highway safety. One of the areas acquired had planning permission for five dwellings.

The intention had been to dispose of one of the sites for private residential development with conditions attached to the sale to ensure the making up of the whole of the roadway and to further enhance the playing fields projects. Accordingly the availability and proposed sale of the residential site had been made widely known both by direct mailing of particulars to a large number of building firms and by advertisements in the local press.

Early valuation advice on likely offers had not suggested that there would be anything like a sufficient margin to meet the Parish Council's ambition to have a pavilion. Offers had been invited, therefore, on a cash basis which had had the added advantage of achieving instant comparability. The highest offer received, by a considerable margin, had been £34,250. At that stage discussions had taken place about the possibility of converting that offer into cash plus works basis.

It was considered that the pavilion could be built at the same time as the houses and apart from savings in design time, undoubtedly the lowest price obtainable would be from the successful offeror.

The Committee was therefore requested to say whether it wished to approve a package deal, the money from which would be sufficient to cover the Borough Council's total expenditure, including interest on the purchase monies and fees, and which reflected the Borough Council's role as "middle man" in assisting and enabling Parish Council's to achieve modern recreational facilities through the Parish Projects Scheme.

The proposal would involve the disposal of the recreational site to the Parish Council for use in conjunction with an extension of the village playing fields and the disposal of the proposed residential site to the highest offeror for a cash value of £21,910 together with the imposition of a covenant to make up the proposed road to adoption standard for its full length and the construction of a small pavilion to the Parish Council's requirements. The estimated cost of the pavilion and associated works was £14,320, and the specification and the value for money aspects would be subject to approval by the Borough Surveyor.

A summary of the financial situation was as follows :-

TE

	£	£
Money required by Borough Council	23,710	
To be paid by :-		
a. Parish Council for recreational site.	1800	
b. Builder for residential site	<u>21910</u>	21910

RESOLVED that the above proposals, as shown on Plan BS No.140 be approved.

The above is the culmination of the Parish Council meetings held in Committee over the past two years.

Severn-Trent Water Authority, Soar Valley Flood Alleviation Scheme.

A letter together with three sets of maps and plans of the above scheme had been received from the Divisional Manager of the Severn-Trent Water Authority, with the request that these are deposited in the three parishes and are made available for inspection by the general public.

The Clerk reported that he had placed the copies with Mr.Eggleston for the Burton Parish, Mr.Urwin for the Cotes Parish, and Mr.Sleath for the Prestwold Parish.

Details of the Parish Council's requirements for General Expenditure for 1982-3 were required by the Borough Treasurer.

The Clerk reported that there would be an estimated balance on 31st.March,1982 of £2945.

The estimated General Expenditure for 1982-3 will be£1103, and in addition to this the Parish Council will be responsible for the balance of £1980 for the Sports Pavilion.

On the proposition of Dr.Evans, seconded by Mr.Oldham, it was agreed to Precept for £3000 for General Expenses for 1982-3, and the Form of Precept was then completed and signed.

The Rev.Farmer stated that he had consulted the  
Diocesan Registrar concerning the Burial Ground,  
and had been informed that the legal situation is  
that should the Parish Council agree to take over  
the maintenance work, this will in no way indicate  
that possession or ownership has been given up by  
the Church.  
The Chairman invited the Rev. Farmer to speak on the  
question of maintenance of the Burial Ground, and he  
re-affirmed the Parochial Church Council's wish that  
the Parish Council considers the taking over the

TE

Bus Stop, Nottingham Road, Loughborough.

Miss Fletcher asked if the Bus Stop on Nottingham Road, (opposite Ratcliffe Road entrance) can be replaced.

This stop which used to be adjacent to a newspaper shop was removed during recent demolition operations, with the result that passengers wishing to alight at this point to go to the Midland Railway Station are being taken a considerable distance further into town to the next stop. Local Elections, May, 1983, Requirements for Parish Precepts.

Information has been received from the Borough Secretary concerning the costs which may arise in the event of a poll being necessary at the forthcoming Parish and District Council Elections in May, 1983. Details are as follows :-

When the following elections fall to be held in the same year, that is to say -

- a, The ordinary election of district councillors for any district ward, and
- b, The ordinary election of parish or community councillors for any parish or community, or any parish or community ward which is co-extensive with or situated in that district ward.

The polls at those elections shall be taken together, and one half of the costs of taking the combined polls shall be treated as attributable to the holding of each election.

The Borough Secretary also stated that in 1979 the proportion of the cost attributable to the Parish was £109.68. If the Parish Council thinks it proper to use this as a guide for next year, then the Borough Secretary suggests that a reasonable addition for inflation since that time would be about 50%.

Planning Application No. 82/1979/2, Manor Farm,  
Burton-on-the-Wolds, Erection of six houses.

A letter referring to the amended plan showing dual access, (previously discussed at the September meeting) together with a visibility splay plan had been received from the Borough Planning Officer.

The letter stated that the point of access to the above development as indicated on the amended plan by the Parish Council would not be accepted by the Director of Planning and Transportation due to the proximity of the existing lane, and the confusion to turning traffic that would result.

The letter also referred to the visibility splay plan and went on to say that agreement has now been reached between the Director of Planning and Transportation, Mr. Hackett and Mr. Pepper regarding the visibility splay shown on the plan, this now meets highway safety standards.

The letter also stated that the Borough Planning Officer will be presenting the application to the Highways and Planning Committee based on the amended double access plan and the visibility splay plan.

Mr. Howe proposed that a letter be sent to the Borough Planning Officer stressing the need for more space for the parking of cars on the proposed development, and particularly for service vehicles which will have to visit the houses. Mr. Howe also proposed that greater emphasis should be made regarding the amount of traffic using Barrow Road and the congestion created by cars parked on the road during school opening and closing times. Vehicles visiting the proposed site and not able to gain access due to lack of parking space would therefore have to park on Barrow Road thus adding to the traffic congestion. It was agreed that the Clerk should write to the Borough Planning Officer stressing again the need for adequate parking space on the development, and also refer to the traffic conditions which already
